

# WORLD POPULATION BY COUNTRY (JANUARY 2024)

A pie chart illustrating the distribution of countries by the number of COVID-19 cases. The chart is divided into numerous segments, with the largest being China (1409.7M, 18%) and India (335.0M, 4%). The segments are color-coded and labeled with the country name, the number of cases in millions (M), and the percentage of the total. The legend on the right lists the countries in descending order of case count.

Country	Cases (M)	Percentage
China	1409.7M	18%
India	335.0M	4%
United States	223.8M	3%
